

Mathematics - Tier 1 Canada Research Chair in Geometric Dynamics

(Associate Professor/Professor)

The University of British Columbia

Location: British Columbia

Date posted: 2021-04-20

Advertised until: 2021-05-21

We seek a global mathematics research leader for a CRC Tier 1 position in Geometric Dynamics. The successful candidate will be eligible to hold a position as an Associate Professor or as a Professor (both with tenure) in the Department of Mathematics at the University of British Columbia. The anticipated starting date will be September 1, 2021, or as soon as possible thereafter. The successful candidate will be an established researcher with a record of world-class research accomplishments in the area of geometric dynamics, demonstrated excellence in teaching and supervision at both the undergraduate and graduate levels, a strong track record of attracting research funding, extensive prior experience in outreach activities to the broader community including groups that are under-represented in academic mathematics, and a track record in supporting equity, diversity and inclusion. Administrative experience is also essential for this position. Duties include ongoing leadership in mathematical research, service to the Department and the academic community, student teaching and supervision. Salary will be commensurate with experience and research record.

Applicants must meet the eligibility requirements for a Tier 1 CRC position. Tier 1 CRC nominees must be Professors or Associate Professors who are expected to be promoted to the Professor rank within one or two years of the nomination. The Canada Research Chairs Program supports outstanding researchers in areas that will further UBC's strategic research plan. All Chair nominations are subject to review and final approval by the CRC Secretariat. Please consult the Canada Research Chairs website <https://www.chairs-chaires.gc.ca> for full program information and further details on eligibility criteria.

Applicants are strongly encouraged to apply on-line as described at <http://www.mathjobs.org/jobs/UBC/>

Alternatively, applicants may send a current CV including a list of publications, statements describing previous performance in research, teaching and supervision, and a statement identifying strengths and experiences related to equity, diversity and inclusion in their current and previous institutional environments, to the following address. Names and contact details of at least four references should also be sent.

Chair, Departmental Committee on Appointments
Department of Mathematics
#121-1984 Mathematics Road
University of British Columbia
Vancouver, B.C., Canada, V6T 1Z2

The deadline for application materials to be received is **May 21st, 2021**.

In accordance with UBC's CRC Equity, Diversity, & Inclusion Action Plan, and pursuant to Section 42 of the BC Human Rights code, the selection will be restricted to members of the following designated groups: women, visible minorities (members of groups that are racially categorized), persons with disabilities, and Indigenous peoples. Applicants to Canada Research Chair positions are asked to complete this equity survey: https://ubc.ca1.qualtrics.com/jfe/form/SV_6WJHol7SfPxRMu9 as part of the application, and candidates from these groups must self-identify as belonging to one or more of the designated equity groups to be considered for the position. Because the search is limited to those self-identifying as members of designated equity groups, candidates must also provide their name to be considered.

Personal information is collected under the authority of sections 26(a) and 26(c) of the BC Freedom of Information and Protection of Privacy Act. The information you provide will only be used to determine whether you qualify for participation in this hiring process. Data will be collected by the Equity & Inclusion Office and only the names of those who identify as women, visible minorities (member of groups that are racially categorized) and/or Indigenous peoples will be shared with the search committee. Currently, UBC has a gap in representation for people with disabilities. Until such time as this is remedied, the names of those self-identifying as having a disability will be provided separately to the search committee. Responses will be stored in a secure database.

Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented or discouraged. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person.

In assessing applications, UBC recognizes the legitimate impact that leaves (e.g., maternity leave, leave due to illness) can have on a candidate's record of research achievement. These leaves will be taken into careful consideration during the assessment process.

UBC welcomes and encourages applications from people with disabilities. Accommodations are available on request for all candidates taking part in all aspects of the selection process. To confidentially request accommodations, please contact Kylie Prokopetz at kylie.prokopetz@ubc.ca.
